Subject Index of Volume 83

Absorption
absorption and fluorescence spectra of the probe Hoechst 33258, 39
2-Acetylpyridine-phenylhydrazone
photophysical and electrochemical characterization of Pd^{II} cyclometallated complexes with 2-acetylpyridine-phenylhydrazone, 165
Acid–base systems
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97
Acid Orange 7
photochemistry of textile azo dyes. Spectral characterization of excited state, reduced and oxidized forms of Acid Orange 7, 141
Alkyl hyponitrites
chemiluminescence from alkyl hyponitrites in viscous liquid media, 21
Alkyl *N*-alkylbenzohydroxamates
photolysis of alkyl *N*-alkylbenzohydroxamates, 217
Alkyloxo-oxobis(benzohydroxamato)vanadium
photodecomposition of alkyloxo-oxobis(benzohydroxamato)-vanadium(V) in acetone solutions, 171
9-anthrylmethylmethacrylate
photodecomposition of copolymers between 9-anthryl-methylmethacrylate and methylmethacrylate by XeF excimer laser irradiation, 55
Azo dyes
photochemistry of textile azo dyes. Spectral characterization of excited state, reduced and oxidized forms of Acid Orange 7, 141
Azulene
self-quenching of azulene fluorescence in cyclohexane, 199

Br_2
a study of the UV–visible absorption spectra of Br_2 and BrCl, 179
BrCl
a study of the UV–visible absorption spectra of Br_2 and BrCl, 179

Carboxylic acids
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97
CdS
enhancement of luminescence of colloidal CdS in the presence of indoles — study of CdS-sensitized reactions of indole, 251
Chemiluminescence
chemiluminescence of *N*,*N*′-dialkyl-9,9′-biacridylidenes in homogeneous and micellar media, 15
chemiluminescence from alkyl hyponitrites in viscous liquid media, 21
kinetic investigation of the molecular chemiluminescence $SrBr(A^2\Pi, B^2\Sigma^+ \rightarrow X^2\Sigma^+)$ and the time-resolved atomic fluorescence $Sr(5^3P_1 \rightarrow 5^1S_0)$ following the pulsed dye-laser generation of $Sr(5^3P_J)$ in the presence of CH_3Br and CF_3Br, 79
Copolymers
photodecomposition of copolymers between 9-anthryl-methylmethacrylate and methylmethacrylate by XeF excimer laser irradiation, 55
Crystal violet
electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 257
Cyclometallated complexes
photophysical and electrochemical characterization of Pd^{II} cyclometallated complexes with 2-acetylpyridine-phenylhydrazone, 165

Dialkylation
dealkylation of N-substituted indolinospironaphthoxazine photochromic compounds under UV irradiation, 147
N,*N*′-Dialkyl-9,9′-biacridylidenes
chemiluminescence of *N*,*N*′-dialkyl-9,9′-biacridylidenes in homogeneous and micellar media, 15
Dienones
regioselective photoisomerization of dienones: role of polar excited state, 211
Dihydrogen evolution
1,4-bis(1,2,5-triphenyl-4-pyridyl)benzene as a novel hydrophobic electron relay for dihydrogen evolution in photocatalytic systems based on lipid vesicles, 153
Donor–acceptor pair
factors affecting photoinduced electron transfer in a donor–acceptor pair (D–A) incorporated into bovine serum albumin, 229

Electrophotographic photoreceptor
electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 257
Excited state
photochemistry of textile azo dyes. Spectral characterization of excited state, reduced and oxidized forms of Acid Orange 7, 141

Fluorescence
self-quenching of azulene fluorescence in cyclohexane, 199
Fluorescence spectra
absorption and fluorescence spectra of the probe Hoechst 33258, 39
2-(2′-Furanyl)-1H-benzimidazole (Fuberidazole)
photophysical properties and photodegradation mechanism of 2-(2′-furanyl)-1H-benzimidazole (Fuberidazole), 237

Indole
enhancement of luminescence of colloidal CdS in the presence of indoles — study of CdS-sensitized reactions of indole, 251
Ion pairs
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97

Lipid vesicles
1,4-bis(1,2,5-triphenyl-4-pyridyl)benzene as a novel hydro-

Elsevier Science S.A.

phobic electron relay for dihydrogen evolution in photocatalytic systems based on lipid vesicles, 153
Luminescence
luminescence, spectroelectrochemistry and photoelectrochemical properties of a tetraruthenated zinc porphyrin, 245
enhancement of luminescence of colloidal CdS in the presence of indoles — study of CdS-sensitized reactions of indole, 251

Methylmethacrylate
photodecomposition of copolymers between 9-anthrylmethylmethacrylate and methylmethacrylate by XeF excimer laser irradiation, 55

Phenylazosulphonate surfactants
UV laser photolysis and quantum yields of para-substituted phenylazosulphonate surfactants, 129
Phenylpyridines
excited state protonation of phenylpyridines, 91
s-Phenyl thiobenzoates
photolysis of s-phenyl thiobenzoates in various media, 49
Photocatalysts
zirconium phosphates as photocatalysts, 63
Photocatalytic degradation
photocatalytic degradation of *p*-toluenesulphonic acid in aqueous systems containing powdered and immobilized titanium dioxide, 69
Photocatalytic systems
1,4-bis(1,2,5-triphenyl-4-pyridyl)benzene as a novel hydrophobic electron relay for dihydrogen evolution in photocatalytic systems based on lipid vesicles, 153
Photochromic compounds
dealkylation of N-substituted indolinospironaphthoxazine photochromic compounds under UV irradiation, 147
Photodechlorination
photodechlorination of mono and polychlorobenzenes by reductive photosensitization, 107
Photodecomposition
photodecomposition of copolymers between 9-anthrylmethylmethacrylate and methylmethacrylate by XeF excimer laser irradiation, 55
photodecomposition of alkyloxo-oxobis(benzohydroxamato)-vanadium(V) in acetone solutions, 171
Photodegradation
photophysical properties and photodegradation mechanism of 2-(2′-furanyl)-1H-benzimidazole (Fuberidazole), 237
Photoelectrochemical properties
luminescence, spectroelectrochemistry and photoelectrochemical properties of a tetraruthenated zinc porphyrin, 245
Photoelectrolytes
photochemical determination of aggregation in polyelectrolytes and the binding constants of quencher molecules, 161
Photoinduced electron transfer
factors affecting photoinduced electron transfer in a donor–acceptor pair (D–A) incorporated into bovine serum albumin, 229
Photolysis
photolysis of s-phenyl thiobenzoates in various media, 49
photolysis of alkyl *N*-alkylbenzohydroxamates, 217
Photomineralization
photomineralization of salicylic acid: a kinetic study, 263
Photo-oxidation
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97
Photophysical properties
photophysical properties of some polycyclic conjugated hydrocarbons containing five-membered rings, 7
Photopolymerization
industrial photochemistry XXI. Chemical, transport and refractive index effects in space-resolved laser photopolymerization, 29
Photoproducts
photoproducts formed by near-UV irradiation of thymine in the presence of *p*-aminobenzoic acid, 223
Polychlorobenzenes
photodechlorination of mono and polychlorobenzenes by reductive photosensitization, 107
Polycyclic conjugated hydrocarbons
photophysical properties of some polycyclic conjugated hydrocarbons containing five-membered rings, 7
Polyphenylacetylene
electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 257
Protonation
excited state protonation of phenylpyridines, 91

Quantum yields
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97
Quencher molecules
photochemical determination of aggregation in polyelectrolytes and the binding constants of quencher molecules, 161
Quenching
generation of singlet oxygen by 2,2′:5′,2″-terthiophene and some of its derivatives, 1

Redox reactions
photo-oxidation of carboxylic acids via photochemical redox reactions of ion pairs: evaluation of the corrected quantum yields for multi-equilibria acid–base systems, 97
Reductive photosensitization
photodechlorination of mono and polychlorobenzenes by reductive photosensitization, 107
Regioselective photoisomerization
regioselective photoisomerization of dienones: role of polar excited state, 211

Salicylic acid
photomineralization of salicylic acid: a kinetic study, 263
Selective dissociation
TEA–CO_2 laser-driven synthesis of $^{13}CF_3X$ (X=Br or Cl), 193
Self-quenching
self-quenching of azulene fluorescence in cyclohexane, 199
Singlet oxygen
generation of singlet oxygen by 2,2′:5′,2″-terthiophene and some of its derivatives, 1
chemiluminescence of *N*,*N*′-dialkyl-9,9′-biacridylidenes in homogeneous and micellar media, 15
Spectroelectrochemistry
luminescence, spectroelectrochemistry and photoelectrochemical properties of a tetraruthenated zinc porphyrin, 245

Spin–orbit-coupling
spin–orbit-coupling-induced triplet formation of triphenylpyrylium ion: a flash photolysis study, 205
Stereophotolithography
industrial photochemistry XXI. Chemical, transport and refractive index effects in space-resolved laser photopolymerization, 29
trans-Stilbene-4-carboxylic-acids
photochemistry of fluoro- and chloro-substituted *trans*-stilbene-4-carboxylic-acids and their derivatives in the crystalline phase, 113

TEA–CO_2 laser
TEA–CO_2 laser-driven synthesis of $^{13}CF_3X$ (X=Br or Cl), 193
2,2′:5′,2″-Terthiophene
generation of singlet oxygen by 2,2′:5′,2″-terthiophene and some of its derivatives, 1
Tetraruthenated zinc porphyrin
luminescence, spectroelectrochemistry and photoelectrochemical properties of a tetraruthenated zinc porphyrin, 245
Time-resolved atomic fluorescence
kinetic investigation of the molecular chemiluminescence $SrBr(A^2\Pi, B^2\Sigma^+ \rightarrow X^2\Sigma^+)$ and the time-resolved atomic fluorescence $Sr(5^3P_1 \rightarrow 5^1S_0)$ following the pulsed dye-laser generation of $Sr(5^3P_J)$ in the presence of CH_3Br and CF_3Br, 79
Titanium dioxide
photocatalytic degradation of *p*-toluenesulphonic acid in aqueous systems containing powdered and immobilized titanium dioxide, 69
p-Toluenesulphonic acid
photocatalytic degradation of *p*-toluenesulphonic acid in aqueous systems containing powdered and immobilized titanium dioxide, 69
Triphenylpyrylium
spin–orbit-coupling-induced triplet formation of triphenylpyrylium ion: a flash photolysis study, 205
Triplet formation
spin–orbit-coupling-induced triplet formation of triphenylpyrylium ion: a flash photolysis study, 205
Thymine
photoproducts formed by near-UV irradiation of thymine in the presence of *p*-aminobenzoic acid, 223

UV irradiation
dealkylation of N-substituted indolinospironaphthoxazine photochromic compounds under UV irradiation, 147
photoproducts formed by near-UV irradiation of thymine in the presence of *p*-aminobenzoic acid, 223
UV laser
UV laser photolysis and quantum yields of para-substituted phenylazosulphonate surfactants, 129
UV–visible absorption spectra
a study of the UV–visible absorption spectra of Br_2 and BrCl, 179

XeF excimer laser
photodecomposition of copolymers between 9-anthrylmethylmethacrylate and methylmethacrylate by XeF excimer laser irradiation, 55

Zirconium phosphates
zirconium phosphates as photocatalysts, 63
